To Whom It May Concern:

No words can truly describe the experience of Laymon Hicks' motivational message! However, I can attest that if you read Laymon's website, everything it says is true!

I first met Laymon last year at the NASC Speakers' Showcase. My students and I thoroughly enjoyed his presentation, and we immediately booked him for our school's Freshmen Day and as a keynote speaker for the 2011 Florida Association of Student Councils state conference. My students who had heard Laymon speak at Freshmen Day were very excited to hear him again at FASC.

Laymon's energetic style and passion for his job is evident in everything he does. He is professional and prompt in his business. Young people connect with his message, and he spends time meeting and greeting and really getting to know his audience. Obviously, Laymon's calling is helping youth, and you could not ask for a better speaker and friend.

Please note that this is not a generic recommendation letter. In the seventeen years as an SGA advisor, I have had the pleasure of hearing keynote speakers from across the country, and I can assure you that Laymon is a jewel! He is a blessing to all, and I know he will continue to be an asset in the leadership field!

Sincerely,

Celene Sessions
